David J. Disabato, Ph.D.

david.disabato@case.edu

EDUCATION

Aug 2026 – Present
Case Western Reserve University, Cleveland, OH
Master of Science (MS), Biostatistics
Minor Concentration, Health Care Analytics

Sept 2019 – July 2022
Kent State University, Kent, OH
Post-doctoral Research Fellowship, Clinical Affective Science Lab
Advisor: Karin Coifman, Ph.D.

Sept 2018 – Aug 2019
Upstate Medical University, Syracuse, NY (APA Accredited)
Pre-doctoral Clinical Psychology Internship, Adult Track

Aug 2012 – Aug 2018
George Mason University, Fairfax, VA (APA Accredited)
Doctor of Philosophy (PhD), Clinical Psychology, 2019
Dissertation, "A closer look at the measurement of well-being: Methodological and statistical issues", 2018
Minor Concentration, Quantitative Psychology, 2018
Advisor: Todd Kashdan, PhD.

Aug 2008 – May 2012
Villanova University, Villanova, PA (magna cum laude)
Bachelor of Arts (BA), Psychology, 2012
Minor Concentration, Philosophy

EMPLOYMENT

Aug 2022 – June 2026
Baldwin Wallace University, Berea, OH
Assistant Professor, Psychology Department
Director: Health and Well-being Lab

QUANTITATIVE CONSULTING

CODING

Feb 2021 – Present
R packages for pre-processing data in preparation for analysis
CRAN: https://cran.r-project.org/

- `quest` (https://cran.rstudio.com/web/packages/quest/index.html) is an R package for preparing questionnaire data for analysis (e.g., subscale scoring, reliability coefficients, descriptive statistics, multilevel correlations, etc.).
    - Currently has over **55,000 downloads**.
- `str2str` (https://cran.r-project.org/web/packages/str2str/index.html) is an R package for converting R objects from one structure to another (e.g., list of matrixes to a data.frame).

- Currently has over **80,000 downloads**.

WRITING

Jan 2016 – Present

Applied statistics blog
Personal Website: daviddisabato.com
- Write blog posts communicating the quantitative literature to research psychologists and encouraging best data analytic practice.

Nov 2015

NOBA online psychology instruction
Client: Robert Biswas-Diener, Ph.D.
- Wrote a blog post for undergraduate psychology students on reading journal articles with advanced statistics: Lost in the details? 4 simple steps to help students better understand study results.

SPEAKING

June 2022

Pre-processing questionnaire data in R
Client: Kent State University Psychology Department
- Lead a 2-day interactive workshop on the R statistical software program.
- Taught importing, wrangling, and manipulating questionnaire data in R using the `quest` package.
- Showcased example general linear models and multilevel models in R.
- Provided annotated R scripts for students and faculty to use for their own data pre-processing.

June 2018

Introduction to R for psychological data analysis
Client: George Mason University Psychology Department
- Lead a 3-day interactive workshop on the R statistical software program.
- Taught importing, structuring, wrangling, and manipulating data in R.
- Provided annotated R scripts for students and faculty to use for their own data management.

Sept 2016

Latent profile analysis: Person-centered latent variable modeling
Client: George Mason University Psychology Department
- Presented a one-hour summary of latent profile analysis to graduate students and faculty.
- Provided Mplus and excel templates for students and faculty to use for their own analyses.

DATA ANALYSIS

Jan 2018 – June 2018

Assessment of work-related curiosity
Client: Merck Pharmaceuticals
- Helped create a multi-dimensional questionnaire of work-related curiosity.
- Created an online survey that was posted on Amazon Mechanical Turk for current workers in the USA to participate in.
- Conducted psychometric analyses on the survey data to refine the measure.
- Wrote a professional summary report presented to the client.

Dec 2016 – Jan 2017

Types of curious employees and employers across three countries

Client: Merck Pharmaceuticals
- Used latent profile analysis to classify employees and employers into various curiosity groups.
- Wrote a professional summary report presented to the client.

May 2015 – May 2016 **Threat assessment training among college counseling center staff**
Client: Jeffrey Pollard, Ph.D.
- Created an online survey distributed to college counseling center therapists.
- Conducted statistical analyses to test various research questions.
- Wrote the methods and results sections for 1 peer-reviewed journal article.

May 2014 – May 2016 **Expanding the science and practice of gratitude**
Client: Jeffrey J. Froh, Ph.D.
- Used growth curve analyses to test longitudinal associations between gratitude and prosocial/antisocial behavior.
- Wrote the methods and results sections for 1 peer-reviewed journal article.

Sept 2014 – Sept 2015 **Taking a chance on change**
Client: John S. Wilson, Ph.D., MHM Services, Inc.
- Psychometric validation of a self-report questionnaire of criminal thinking.
- Program evaluation of a criminal thinking intervention in state correctional facilities.
- Wrote the methods and results sections for 2 peer-reviewed journal articles.

May 2013 – Sept 2013 **Health and education of charter school children**
Client: Donna D. Klagholz, Ph.D. & Associates, LLC
- Program evaluation of macro-level interventions in several Washington DC charter schools.
- Wrote a professional summary report presented to the client.

QUANTITATIVE TRAINING

COURSES

Aug 2026 – Present **Biostatistics Coursework, Case Western Reserve University**, Cleveland, OH
Secondary Analysis of Large Health Care Databases (PQHS-515)
Epidemiology: Introduction to Theory and Methods (PQHS-490)
Statistical Methods using R (PQHS-431)
Basics of Probability and Statistical Theory (PQHS-430)
Data Management and Statistical Programming in SAS (PQHS-414)

Aug 2012 – May 2016 **Quantitative Psychology Coursework, George Mason University,** Fairfax, VA
Multivariate Statistics (PSYC 756)
Psychometrics (PSYC 557)
Longitudinal Data Analysis (PSYC 646)
Meta-Analysis and Structural Equation Modeling (PSYC 892; Audit)
Regression (PSYC 754)
Calculus-based Probability Theory (STAT 346, Audit)

Advanced Statistics I & II (PSYC 611 & 612)
Social Science Research Methodology (PSYC 644)

Software Packages: R, Mplus, SPSS, HLM, AMOS

WORKSHOPS

Octo 2020 (3 days) **Latent Growth Curve Modeling**, Online Virtual Format
Instructor: Gregory Hancock, Ph.D.
- Three -day statistical workshop on latent growth curve modeling in a Structural Equation Modeling (SEM) framework using Mplus.

June 2020 (4 days) **Machine Learning in R**, Online Virtual Format
Instructor: Kevin Grimm, Ph.D.
- Four-day statistical workshop on supervised and unsupervised statistical learning using popular R packages.

Feb 2019 (1 day) **Reproducible Data Analysis and Writing with Rmarkdown**, Portland, OR
Instructor: Sarah Weston, Ph.D.
- Day long statistical workshop on using Rmarkdown to create scientific results sections for publication.

May 2018 (1 day) **Handling Missing Data Responsibly in SPSS and R,** San Francisco, CA
Instructor: Terrence Jorgensen, Ph.D.
- Day long statistical workshop on how to conduct multiple imputation and full information maximum likelihood (FIML) for missing data.

May 2018 (1 day) **Modern Meta-analysis: Large and Small,** San Francisco, CA
Instructor: Blake McShane, Ph.D.
- Day long statistical workshop on how to account for multiple effects, measures, timepoints, and sources of heterogeneity in meta-analysis.

Mar 2018 (1 day) **Longitudinal Dyadic Data Analysis,** Atlanta, GA
Instructor: Deborah Kashy, Ph.D.
- Day long statistical workshop to learn analysis of dyadic data from repeated measures, including daily diary methods.

Aug 2017 (2 days) **Dynamic Structural Equation Modeling,** Baltimore, MD
Instructors: Bengt Muthen, Ph.D.; Tihomir Asparohouv, Ph.D.
- Two day long statistical workshop on how to conduct time series analyses for ecological momentary assessments (EMA) within a structural equation modeling framework in Mplus.

June 2017 (3 days) **Introduction to Bayesian Statistical Modeling,** College Park, MD
Instructor: Roy Levy, Ph.D.
- Three day long statistical workshop on how to conduct advanced statistical analyses from a Bayesian framework (e.g., structural equation modeling) using JAGS in R.

Jan 2017 (1 day) **Bayesian Statistics for Psychologists,** San Antonio, TX
Instructor: Alexander Etz, Ph.D.
- Day long statistical workshop on the basics of Bayesian statistical inference as well as how to conduct basic Bayesian linear models with JASP.

Jan 2017 (1 day) **Data Visualization in R,** San Antonio, TX
Instructors: Maike Luhmann, Ph.D.; Frederik Aust, Ph.D
- Day long statistical workshop to learn how to graphically display data with base R and the popular R package "ggplot2."

June 2016 (5 days) **Introduction to Finite Mixture Modeling,** Albuquerque, NM
Instructor: Katherine Masyn, Ph.D
- Week long statistical workshop to learn finite mixture modeling, including latent class analysis, latent profile analysis, and growth mixture modeling in Mplus.

July 2015 (5 days) **Longitudinal Structural Equation Modeling,** Dallas, TX
Instructor: Todd Little, Ph.D
- Week long statistical workshop to learn advanced structural equation modeling including panel, growth curve, and multi-level models in R and Mplus.

May 2015 (1 day) **Applied Latent Class Analysis,** New York, NY
Instructor: Katherine Masyn, Ph.D.
- Day long statistical workshop to learn latent class and profile analysis in Mplus.

June 2013 (5 days) **Analyzing Intensive Longitudinal Data,** Amherst, MA
Instructors: Niall Bolger, Ph.D. and Jean-Philippe Laurenceau, Ph.D.
- Week long statistical workshop to learn daily dairy data analysis, including multi-level and growth curve modeling in SPSS, R, and Mplus.

May 2013 (1 day) **Multi-level Modeling,** Washington, DC
Instructor: Elizabeth Page-Gould, Ph.D.
- Day long statistical workshop to learn multi-level modeling in SPSS and R.

Sept 2012 – May 2015 **Measurement, Research, Evaluation, and Statistics (MRES),** Fairfax, VA
Instructor: Patrick E. McKnight, Ph.D.
- Weekly readings and discussions on research methodology and applied statistics in psychological science.

GRANTS & AWARDS

Aug 2025 – Present **Psi Chi Honors Society – Mamie Phipps Clark Diversity Research Grant**, Baldwin Wallace University, Berea, OH
- Co-recipient of a $2,000 award for data collection of a study investigating the impact of racial trauma on body image and disordered eating in black women.
- Co-leading a research team of undergraduate students carrying out the study.

Jan 2021 – Dec 2023 **Brain Health Research Institute (BHRI) – Gold Research Award**, Kent State University, Kent, OH
- Recipient of a $5,000 award for pilot data collection of a study investigating changes in affect dynamics during psychotherapy.

- Selected among applications from post-docs and early career faculty from across the University's departments.

Nov 2020 – June 2021 **Applied Psychology Center (APC) – COVID-19 Research Award**, Kent State University, Kent, OH
- Recipient of a $500 award during the COVID-19 pandemic for feasibility data collection of a study investigating changes in affect dynamics during psychotherapy.

Jan 2018 – May 2018 **Dissertation Completion Award**, George Mason University, Fairfax, VA
- Recipient of a $10,000 award based upon the methodological rigor and potential impact of the dissertation project.
- Selected among hundreds of other applications from across the University's graduate departments.

Sept 2017 – April 2018 **Provost Award for Academic Careers Course**, George Mason University, Fairfax, VA
- Obtained $500 from the University to take a specialized graduate course on preparing for a future career as a tenured faculty member doing independent research.

April 2017 **Dean's Challenge Award**, George Mason University, Fairfax, VA

DATA COLLECTION

Jan 2024 – Present

Depression and Anxiety in Daily Life (DADL)
Role: Principal Investigator for an experience sampling study investigating benefits of health behaviors in adults with psychopathology.

- Trained BW undergraduate students to create global surveys in Qualtrics and daily surveys in SEMA-3
- Trained BW undergraduate students to administer Structured Diagnostic Interviews for the DSM-5 (SCID-5)
- Trained BW undergraduate students to collect experience sampling data from the EMA smartphone app SEMA-3

- Completed Institutional Review Board (IRB) revisions to incorporate new student research assistants.

Funder: Start-up at Baldwin Wallace University

Jan 2021 – Dec 2023

Daily Emotions in Therapy (DET)

Role: Co-Principal Investigator for an experience sampling study investigating changes in affect dynamics during psychotherapy.

- Completed Institutional Review Board (IRB) proposals for data collection.
- Organized purchase of study materials and financial compensation of participants with grant funds.
- Administered 40 Structured Diagnostic Interviews for the DSM-5 (SCID-5)
- Trained participants to collect experience sampling data from the EMA smartphone app ExpiWell
- Collected cognitive functioning data using the Gorilla online platform

Funder: Brian Health Research Institute (BHRI) at Kent State University
Co-Principal Investigator: Karin Coifman, Ph.D., Clinical Affective Science Lab

Sept 2019 – July 2022

Resilience and Adaptation to Injury (RAI)

Role: Postdoctoral project coordinator for a multi-method, longitudinal study on the etiology of psychopathology after traumatic injuries.

- Administered 84 Structured Diagnostic Interviews for the DSM-5 (SCID-5)
- Trained participants to collect experience sampling data from the EMA smartphone app ExpiWell
- Collected psychophysiological data using MindWare software
- Artifact cleaning of psychophysiological data (including formal training from MindWare employees)
- Cleaned facial expression data from Noldus software

Funder: National Institute of Mental Health (NIMH): R01MH113622-01A1
Principal Investigator: Karin Coifman, Ph.D., Clinical Affective Science Lab

Jan 2016 – Jan 2018

Psychologically flexible people: A study of optimal human functioning

Role: Graduate student project coordinator for a multi-method, longitudinal study on the nature of psychological flexibility and its correlates.

- Completed Institutional Review Board (IRB) proposals for data collection.
- Organized purchase of study materials and financial compensation of participants with grant funds.
- Conducted online pilot data collection through Amazon Mechanical Turk.
- Created online questionnaires, creativity tasks, and day reconstruction assessments in Qualtrics surveys.
- Developed stressful life events and emotion regulation interview protocols.
- Trained and managed undergraduate research assistants running a 4 hour in-lab session for 200+ participants.
